

Installation

WSL 10 single-leaf

WSL 20 double-leaf

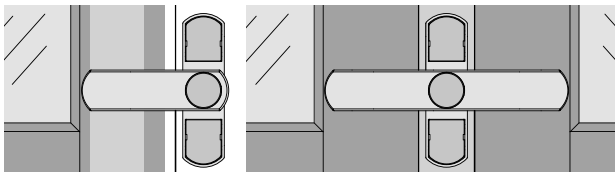

Figure 1: Overview, locked position

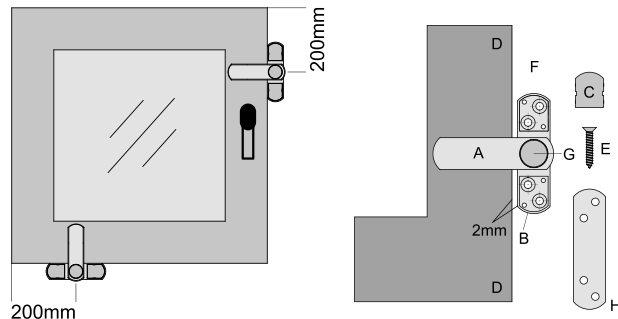

Figure 2: Recommended assembly position

Figure 3: Assembly of the mounting block

- 1 Close the window or French window and determine the assembly position (see Figure 2).
- 2 Turn the latch (A) of the additional locking device (see Figure 3) and remove the caps (C).
- 3 Position the mounting block (B) on the window frame (F). When doing so, pay attention that there is 2 mm distance between the window casement (D) and mounting block (B). The 2 mm spacer plate (H) supplied can be used as an aid to determine the distance.
- 4 Mark the 4 drill holes for the retaining screws (E).

- 5 Then drill the holes using a drill bit with 3 mm \varnothing and screw the mounting block (B) firmly to the window frame (F) using the self-tapping screws (E).
- 6 To ensure that the latch (A) does not scrape over the window casement when locking and unlocking, it may be necessary to use the spacer plates (H) supplied to adjust the height.
- 7 Finally, press the 2 caps (C) back on the recesses in the retaining screws (E).

Operation

- 1 To lock the window or French window, turn the latch (A) until it engages.
- 2 To unlock it, press and hold the knob (G) in and turn the latch (A) back again.

Assembly Manual Additional Window and French Window Lock

WSL 10 WSL 20

Read the assembly manual thoroughly and observe the information contained during installation. Keep the assembly manual in a safe place for future reference.

Intended Use

The additional window and French window lock provides additional security against unauthorised entry to a property. They can be assembled on single and double-leaf, inward opening windows and French windows.

These highly robust anti-burglary devices can be mounted at one or more points on windows and French windows as necessary. A condition for complying with the intended use is that the equipment is installed correctly and the information in the manual is observed and maintained.

Any other use is considered unintended use. Unauthorised modifications or reconstructions not described in the manual are not permitted and could cause the product to be damaged.

Safety Instructions

WARNING! Risk of suffocation! Children can swallow small parts, packaging and protective foils. Keep the product and packaging out of reach of children!

IMPORTANT! Improper assembly can lead to property damage. Install the window lock as described in this assembly manual. Only use the assembly material supplied.

Scope of Delivery

Check the package supplied is complete:

- Additional window and French window lock
- 4 x M5 x 50 mm self-tapping screws
- 1 mm spacer plate
- 2 mm spacer plate
- Assembly manual

General Assembly Information

- Before beginning any assembly work, ensure that the window or French window can be opened and closed properly.
- When drilling the holes, pay attention that any moving parts, seals and glass panes are not damaged.
- When drilling and tightening screws, ensure that the drill / screws do not project on the rear side of the window frame. Adapt the length of the screws to the window frame and use a drilling stop.
- To prevent overtightening the retaining screws, tighten them by hand using an appropriate screwdriver.
- If a window diameter exceeds 1 m, it is recommended to mount a second lock (see Figure 2).

Tools Required

- Screwdriver
- Tape measure
- Drill with bit: Ø 3 mm

Guarantee

The period of guarantee is 24 months. The period of guarantee begins on the date of purchase. It is essential to keep the purchase receipt and original packaging.
